PRESENTATION:

12-1 pm • Room 4-151

FILM:

3-5 pm • Room 4-151

Nicholle will show her most recent film, followed by a Q/A discussion session.

As an artist of visual culture, Nicholle is interested in the intersection between the digital environment and media social issues. Her most recent film "Homicidez" is a documentary of those experiencing violence in our cities. It was filmed in Rochester, NY.

Her soon-to-be-released film "Solutionz" displays how incarceration has affected youths through their eyes, as well as investigates the general situation. The film examines the personal story of a few children, in both their lives with their parents and the world they live without them.
