Knitting Cool Scarves

Note: Pre-registration required for this session

Come and learn how to knit yourself a cool scarf! Once just for grandmothers, knitting is the latest crafting craze for pre-teens and teenagers; girls and boys are learning the difference between cast on (beginning a project) and bind off (ending a project). Not only is knitting great for bonding with other pre-teens and teens, but "knit one, purl two" is a multi-generational language. Seeing a project from start to finish is a great way to bolster self-esteem, and it doesn't need much more than just needles, some yarn and practice, practice, practice. Best of all, it is much more fun to create and personalize the ever-trendy scarf than to pick one up at the mall.
