## What does the Weather Man Do and How? - COMMON SESSION - 10:00 AM

- What is a meteorologist?
- What tools a meteorologist uses to produce a weather forecast?
- How a meteorologist can incorporate weather data from local, regional, & global scales to produce a weather forecast?
- What kind of career path a meteorologist can pursue?
- How much training a meteorologist or atmospheric scientist needs?

Please come up with your questions and let's start having fun!

9-167

8 to 16 years old

## Greenhouse Exploration - 11:00 AM

NOTE: This session is limited to 15 participants.

Children will be able to experience MCC's Greenhouse. In the Grow House they will see different techniques in growing plants such as salad-greens and herbs in hydroponic and aeroponic systems. There is an Aquaponics system that shows how fish and plants live together in a symbiotic environment for sustainable growing. In the warm Tropical House they can explore exotic plants from different tropical regions of the world such as Banana and Pineapple plants. Each child will be able to take home a planting kit with seeds so they can grow their own delicious herbs at home.
