Objective

Entry-level position as a Fire Fighter with a municipal fire department

Education

Associate in Applied Science, Fire Protection Technology, May 2005

Associate in Applied Science, Emergency Medical Technician-Paramedic, May 2002

Monroe Community College, Rochester, NY

Summary of Qualifications

- Proven ability to respond immediately and confidently in emergencies
- Three years experience as a volunteer Fire Fighter
- Five years combined experience working as an EMT-Paramedic
- Able to function at top performance throughout a 24-hour work shift
- Proficient in the use and operation of specialized power/hand tools used in rescue
- Performs dispatch communications
- Wide scope of experiences in the emergency services field

Relevant Experience

Fire Fighting:

- Perform fire ground operations by protecting exposures, confining, controlling and extinguishing the fire, salvaging and overhauling the structure and perform these activities in accordance with policies and procedures
- Operate fire apparatus such as pumps, aerial devices, tankers, rescue trucks, etc.

Crisis Evaluation and Response:

- Effectively evaluate numerous emergencies including motor vehicle accidents requiring treatment prior to transport, heart attacks/cardiac emergencies, family crises, fire related burns and injuries, etc.
- Provide medical assistance to stabilize the patient's condition and prepare the patient for transport to medical care facilities
- Execute rescue operations by performing a primary and secondary search, stabilizing the scene and the victim's injuries, and providing a means of egress so that the victim is removed from an area of danger to an area of safety

Community Relations:

- Perform public relations such as providing public assistance, making presentations, participating in special activities, performing demonstrations and projecting a professional image
