VarData, LLC is looking for

IT Technical Support

Job Description:

Inspect/test all incoming telecom and networking equipment and assist in the maintenance of VarData's internal network. Specifically:

- o Test all incoming equipment:
 - Clean/repair equipment as necessary to ensure customer satisfaction
 - Stage and build equipment according to customer purchase orders
 - Document new testing procedures and investigate new equipment for test lab
 - Work with AC and DC powered equipment
- o Update/maintain IT infrastructure including:
 - Desktops and servers
 - IP phones and PBX
 - Printers and copiers
 - Routers, firewall, switches
- o Assist sales team with products by researching compatibility and capability of multiple manufacturers
- o Clean and maintain lab

Requirements:

Looking for a self-motivated individual to join our team in a part-time/full-time capacity. Some knowledge of telecommunications and data networking preferred.

Come work for a locally owned and operated company that has been on Rochester's Top 100 and Inc. 5000's fastest growing private companies in America.
