

Science & Technology Entry Program
Monroe Community College

This student is applying for admission to the Science & Technology Entry Program (STEP), sponsored by Monroe Community College and the New York State Education Department. The mission of STEP is to increase the number of historically underrepresented and disadvantaged students prepared to enter college and improve their participation rate in mathematics, science, technology, health-related fields, and the licensed professions. STEP gives Monroe County students in grades 7-12 academic support, counseling, mentoring, enrichment opportunities, and inspiration to help them make their college and career goals a reality. Due to space constraints, students are required to participate in a formal application process for the STEP program. In addition to meeting eligibility requirements established by New York State, students must be committed to excelling academically and to personal development. Students must be willing to participate in STEP program activities and contribute to their own success.

Your candid assessment of the student's characteristics and motivation to succeed will help determine the quality of the students who participate in the MCC STEP program.

Student Name: _____ School: _____

Teacher Name: _____ Phone Number: _____

How long have you known this student? _____ Years _____ Months

What course(s) have you taught this student? _____

Please answer the following questions:

1. How would you rank this student's attitude toward learning?
