

Are you interested in college and a career in science, technology, mathematics, a health-related field, or a New York State licensed profession?

Are you committed to excelling academically?

Do you like to have fun?

**Monroe Community College's Science & Technology Entry Program (STEP)
may be a good match for you!**

The STEP program is for Monroe County students in grades 7-12 who are part of a historically underserved group (African American, Hispanic/Latino, Native American Indian/Alaskan Native) or from a low-income background (as defined by New York State income guidelines).
