

MESSAGE FROM THE VICE PRESIDENT, STUDENT SERVICES

Welcome to Monroe Community College; we are pleased that you are a part of our family.

MCC has a national reputation for being one of the best community colleges in the nation. Part of this success is contributed to the ways faculty and staff individually and collaboratively focus upon student success.

The staff in the Student Services Division places student learning and exemplary service as the highest priority. Our practices are devoted to enhancing student learning by collaborating with the college community. These efforts are focused on the overall cognitive, personal and social growth of our students

I encourage you to visit the Student Services web site at www.monroecc.edu. You will find in-depth information about the student services departments, as well as be able to access a myriad of resources at the College and link to other off campus sites.

I wish you much success and professional fulfillment at MCC.

Dr. Susan Salvador

Vice President, Student Services
