

COURSE INFORMATION SHEET

Note: If a more detailed, instructor/section-specific course information sheet is required, please contact the department.

DEPARTMENT:

Business Administration/Economics

COURSE:

BUS202 Business Law II

COURSE DESCRIPTION:

A continuation of BUS201 of the study of legal principles applied to business transactions. Topics covered include: corporations, limited liability companies, partnerships, agency, franchises, bankruptcy, real property, landlord/tenant, personal property, bailments, sales, and secured transaction. Three credits.

COURSE PREREQUISITES:

None (Recommended BUS201, but not a required prerequisite)

COURSE LEARNING OUTCOMES:

1. Define and describe the legal principles applied to business transactions covered in the course including corporations, limited liability companies, partnerships, agency, franchises, bankruptcy, real property, landlord/tenant, personal property, bailments, sales, and secured transactions.
2. Apply the legal principles to practical business situations.
3. Describe how to foresee and avoid legal difficulties in the business world and in personal dealings.
4. Recognize when individuals may handle legal situations on their own and when they should seek the advice and guidance of an attorney.
