

Fall 2024 Admission Information Clinical Laboratory Technician A.A.S For High School Applicants (CL01)

The MCC Clinical Laboratory Technician A.A.S. for incoming high school seniors (CL01) is offered every fall semester. Approximately two high school students are admitted to CL01. All applicants meeting the minimum admission requirements by the application deadline will be considered (see “Admission Requirements” below). MCC maintains a competitive admissions process for this program (see the “Selection Criteria” below).

Applicants who are not selected for the upcoming semester, do not meet admission requirements, or who apply after the deadline will be admitted into another program at MCC (Health Studies Clinical Track or Liberal Arts General Studies) and will have the opportunity to work with an academic advisor to select appropriate courses for possible admission into the program for a future semester. Students will benefit from reviewing [MCC's Clinical Lab Technician program information](#), as well as occupational information via [O*NET](#).

Application Deadline and Notification

The deadline for Fall 2024 is **January 31, 2024**. Admission notifications will be sent by **March 15, 2024**.

How to Apply

- Complete the [MCC application](#) by January 31, 2024
- All official transcripts must be submitted by the January 31st date to be considered. This includes high school transcripts, AP or IB score reports (if applicable), and college transcripts (if applicable; i.e. dual credit coursework taken at other institutions).

Admission Requirements

All admission requirements must be completed prior to the application deadline with a **C or better**. Science courses must include a lab. All high school classes must be at least a one credit course; half credit courses do not meet the required prerequisite. Meeting minimum requirements does not guarantee admission.

- High School Algebra II Regents exam of 83 or higher, or a final Algebra II course grade of 93 or higher and a 3.5 GPA, or a Pre-Calculus course grade of 75 or higher and a 3.5 GPA, or a Pre-Calculus course grade of 83 or higher, or a SAT math score of 620 or higher, or an AP Calculus score of 3 or higher. Minimum math Level 9 placement.
- High School Living Environment/ Biology
- High School Chemistry recommended. Please note – a chemistry prerequisite is required if student chooses BIO 144 & 145 sequence for the CLT program.
- US citizen or have Permanent Resident Status by the application deadline

Students who meet the admission requirements will then be ranked according to the combined average of math and biology grades.

Please note: Selection will be based upon the grades received on the Regents exam and final course grades for the courses listed below. Regents exams are weighted heavier than local exams, but local level exams will be accepted. Students who were enrolled in one of the prerequisite courses during the 2020/2021 school years (due to COVID) and were exempt from the Regents exam will have their final course grade used in the selection process. Interpretation of the high school prerequisite may also vary based on the school district's grading policy if a numeric grade is not posted on the high school transcript. For example, in the event that the school district posted “Pass with Distinction/Pass/Fail” grades, only “Pass with Distinction” will be acceptable unless additional documentation from the school district is provided. Please speak to a staff member in Admissions or Advisement to determine prerequisite eligibility.

Additional Notes Regarding Admission

- If admitted to the program, the student will meet with CLT program faculty for course advisement and registration. Part time study is available, but must be coordinated with the CLT Program Director. Students must be available to take classes during the day and have reliable transportation to clinical sites.
- Admission is conditional upon completion of medical requirements, clearance of existing health problem(s), and ability to meet essential functions (physical and mental demands) of the program. See [Program Essential Functions](#).
- Readmission, if approved, is always on a space available basis and is only allowed once.

Revised August 2023 for 2024 admission. Admission requirements are subject to change.
