MCC

Inspiring every day.

PROGRAM DESCRIPTION:

The Interior Design program combines a study of the creative process with the practical requirements of materials, space planning, and building codes. Emphasis is placed upon using a variety of tools, including drawings and computer processes, to explore and communicate the solutions to design problems. Projects addressing both residential and commercial needs are incorporated into the program to provide a broad understanding of the field of interior design.

POTENTIAL SKILLS TO LEARN:

Computer-aided design for interiors, two-dimensional design, space planning, residential and commercial design aspects, building codes, material requirements, architectural drawing, presentation techniques

COURSEWORK ENHANCEMENT ACTIVITIES AVAILABLE:

Interior Design Resource Library, Visual and Performing Arts Learning Center
