## Integrated Planning & Advising for Student Success

NWTC will engage and empower students to create personalized success plans so they persist to the completion of their pathway credentials

All NWTC students take our intake survey, because we want to get to know you, your strengths, and any potential challenges. It is normal for students to experience challenges and research shows that the most successful students can identify what they need and take advantage of the resources offered. By providing your honest responses, we can proactively connect you to the support you need. This survey will take approximately 3-5 minutes to complete.
