

Faculty Senate Vice President, Professional Staff  
Susan Warner

For the past three years, I have had the privilege of serving as the school specialist for the School of Social Sciences & Global Studies, focusing on student success through the implementation of Guided Pathways. It truly has been a privilege to partner with colleagues from various student services and academic departments in the work of reimagining, creating, and delivering student success services and supports. Every day, I am impressed with the dedication, commitment, and energy MCC's professional staff and faculty bring to their work.

The complexity of the needs of our students is increasing each semester. For our current and future students to succeed, I believe MCC must provide a learning environment where the integrity of our shared governance processes is maintained and valued: We need the collective wisdom of all MCC stakeholders to inform our policies and procedures in order to best meet the needs of our students and community. It is this belief and my desire to play a greater role in ensuring student success that motivates me to ask for your vote for Faculty Senate Vice President, Professional Staff.

My experiences at MCC includes serving on the Faculty Council, Liberal Arts Council, Honors Council, Integrated Advising Board, the Faculty Senate's Education Initiatives and Advocacy Committee, and Faculty Association's Mediation Team. Prior to joining MCC, I worked for financial planning and advertising companies and held leadership roles in various community organizations. My most rewarding work has been the work that I do each day to help our students reach their academic goals. It would be an honor to continue and expand this work as your Faculty Senate Vice President, Professional Staff. Thank you for your consideration.
