MCC's JUNE 8, 2021

ZOOM College Readiness Conference

will carve space for conversation and collegiality amidst the pandemic.

Are you a grant partner? Dual Enrollment colleague? College or HS educator looking to connect?

We invite all area high school partners to collaborate with MCC colleagues in the planning of our June event. Let's create a professional development space where high school and college faculty share and create dialogue with one another about the best ways to help foster faculty support and student learning.
