

6 SIGNS YOU COULD BENEFIT FROM EMOTIONAL HEALTH SUPPORT.

Your mental and emotional wellbeing affects every aspect of your life, from personal relationships and your physical health to your ability to do your job. Here are some signs you could use a little extra support even if you don't have a diagnosed condition.

1

CHANGES IN SLEEP OR EATING HABITS

A notable increase or decrease in appetite and disrupted sleep patterns can be red flags.

2

UNEXPLAINED PHYSICAL AILMENTS

These can include headaches, upset stomach, and general aches and pains.

3

CHRONIC FATIGUE AND A LACK OF ENERGY

Everyone gets run-down, but it's not normal to feel that way for weeks or months.

4

SHUNNING SOCIAL ACTIVITY

Personal connections are crucial to good mental health, even if visits are virtual.

5

GROWING STRESS CAUSED BY DAILY ACTIVITIES

This can take many forms, from an inability to cope with problems to simply feeling overwhelmed.

6

SUBSTANCE ABUSE

Overdrinking or using drugs is a common sign of more serious underlying issues.

IF ANY OF THESE SYMPTOMS
SOUND FAMILIAR, YOU'RE
NOT ALONE. WE CAN HELP.
