

A Simple Purpose, a Search for Talent.

At Ortho Clinical Diagnostics, our purpose is simple:
to improve and save lives through diagnostics. How do we do that?

- We are the world leader in immunohematology, the science of matching blood to ensure patients receiving transfusions get the correct blood.
- We are a world leader in developing technology that helps clinical labs diagnose diseases, conditions and various substances.

We have been in the diagnostics industry for more than 75 years, and we're actively seeking talented new team members to help us grow.

**Visit us October 12, 2017, Noon - 2 pm and 5 - 7 pm
at ATC, Room 149 for
Ortho Clinical Diagnostics Career Day at MCC.**
