

Areas of Rescue Assistance for Individuals with Mobility Impairment

When the fire alarm rings or any other emergency evacuation occurs, individuals that are unable to safely self-evacuate via the stairs should:

- Proceed to the closest area of assistance, or if not possible, to the closest stairwell.
- Call Public Safety (292-2911) to report their location or tell another person to alert emergency personnel of their location once they get outside.
- If life threatening smoke or flames encroach this area while waiting for assistance, seek refuge inside an enclosed stairwell, which provides fire protection for at least 2 hours.

BRIGHTON CAMPUS - AREAS OF RESCUE ASSISTANCE

Administration Building #1:	Sciences Building #7:
• 2nd floor, overlooking bus loop	• Next to 7-215
• Next to 1-300	• Next to 7-315
