## Damon City Campus 15th Anniversary Dinner: Under the City Lights

A significant result of the MCC Foundation's first capital campaign, "Creating a Legacy," MCC's Damon City Campus opened in 1992 due to the overwhelming generosity and encouragement of local business and industry leaders, friends and alumni who believed that a community college campus located downtown would increase educational opportunities for our community. The campus is named for MCC Founding Trustee and Xerox executive the late E. Kent Damon and has represented the college's commitment to Rochester's future ever since.

As our guest at the Damon City Campus 15th Anniversary Dinner you will:

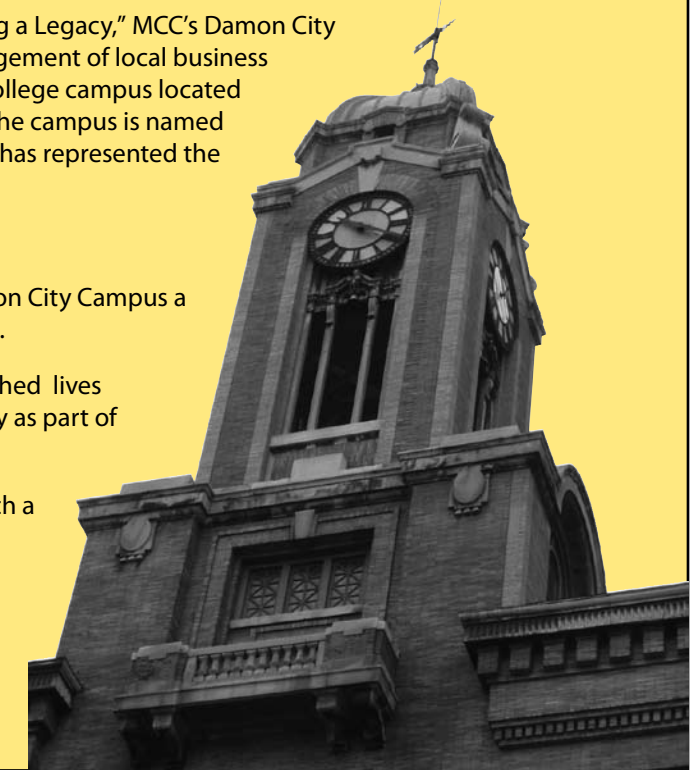

- Reunite with friends, faculty and administrators who have made the Damon City Campus a special place to learn and grow at a heartwarming celebration and tribute.
- Dine under the city lights and hear how the Damon City Campus has touched lives in Greater Rochester and how it will transform the future skyline of the city as part of Renaissance Square.
- Celebrate the people and qualities that make the Damon City Campus such a memorable and important part of our community.
