WHY STUDY IN ITALY

This course is designed to provide students the opportunity to see and experience the richness of Italy through the unique experiences of travel and immersion into local society. The core components of this course will be a stay in country, with visits to the main cities and cultural centers providing experience through immersion. Class meetings prior to the trip will focus on topics that will help the students prepare for the experience, and meetings after the trip will provide a time for debriefing, reporting, evaluation, and assimilation. The student is expected to complete ten tasks during his/her stay, make an oral presentation, and prepare a portfolio of the trip. This portfolio can be a personal journal, photo display, video recording, or a combination thereof. Three class hours. On location hours are variable depending on the field experience offered.

The student is required to attend the pre-departure lecture class (CRN30013) and field learning activities within the country (CRN32801). Lecture, group discussion, readings, videos, and research projects are a few components of the pre-departure lecture component.
