

SPRING 2020

Thursdays from 1:00-4:50 starting in March

GEO 295 FIELD STUDIES IN THE GEOSCIENCES

Geology of New York State

Lectures at 1-4:50pm
starting 3/5 to 5/21/20

Field Excursion 1:
May 9th & 10th

Field Excursion 2:
May 23rd to May 28th

Come discover New York's magnificent scenic features as you learn the geologic events that shaped them. Visit caves, waterfalls, extinct volcanoes, and deep gorges. Discover fossils, puzzling landscapes, and other hidden gems! This class begins March 5th 2020 and ends with two, off-campus field excursions in May. GEO-295 provides 4-credit-hours SUNY General Education in the Natural Sciences. Permission by the Instructor is required.

DESTINATIONS

Adirondacks
Capital District
Catskills
Finger Lakes
Hudson Valley
Mohawk Valley
Niagara Frontier
Southern Tier
Western NY
