

CGI U and Verizon Student Innovation Challenge

CGI U and Verizon have partnered to support college and university students in creating innovative, sustainable enterprises that address pressing social challenges through technology. This partnership will support students through a specialized curriculum, access to technology and innovation experts, and the opportunity to participate in an innovation challenge.

The CGI U and Verizon Student Innovation Challenge highlights Verizon's commitment to support the development of technology-based solutions that drive meaningful social impact, while simultaneously working to diversify the voices in the next generation of innovators. This program is part of Citizen Verizon, Verizon's responsible business plan for economic, environmental, and social advancement.

Challenge Highlights:

- Competition finalists will be provided with access to an accelerator program to advance their ideas towards proofs of concept
- The Challenge will culminate in a pitch competition with the opportunity for participants to win start-up funding for their technology solutions
- Open to all university students accepted into CGI U 2021 and CGI U Alumni

Apply for CGI U 2021 and the opportunity to compete in the CGI U and Verizon Student Innovation Challenge by **January 15, 2021**:
