TO: Alice Wilson, Interim Director
               Leroy V. Good Library
               Chair, NEG Committee, Faculty Senate

FROM: William "Bill" Drumright, Ph.D
               Assistant Professor, History
               Department of Anthropology/History/Political Science/Sociology

RE: Submission of nomination,
               SUNY Faculty Council on Community Colleges

Please accept my nomination for the position of MCC delegate to the SUNY Faculty Council on Community Colleges. I understand that if nominated, I would be serving a three-year term and among various responsibilities related to this position, I would be attending two required conferences each year and engage in substantive service on one of the Council's three standing and two *ad hoc* committees.

In reviewing the Council's website, I believe that I possess the various types of experience that would be required to serve effectively as a delegate. Since coming to MCC in January of 2003, I have actively participated in matters affecting MCC at the department, division, college, and community levels. Among these issues are those relating to the review, revision, and the formulation of curriculum; the implementation and the evaluation of assessment (both for SUNY General Education and for Middle States); and the ongoing processes of hiring, evaluating, and advising tenured, tenure-track, and adjunct faculty.

Moreover, as part of my recent service on the Faculty Association's contract negotiating committee, I helped analyze MCC's budget in light of New York State's financial commitment to its community colleges (most notably, FTE rates of reimbursement), and what such a commitment means to the financial viability of the college. From these experiences, I am able to fulfill the requirements of developing, critiquing, and articulating policies and practices that would affect MCC in particular and SUNY community colleges in general.

Thank you to both yourself and the NEG committee for considering my nomination. Please let me know if you have any questions.

Sincerely,

Bill Drumright
