Free Fall into Writing

MCC's own faculty member Jay Nelson will conduct a writing workshop for attendees by fueling creative energy and allowing students to tell imaginative stories without words. Participants will work in small groups to learn about the writing and revision processes and how important imagery is to the storytelling process during the creation of a picture book. David Wiesner is a renowned American author and illustrator and one of the most highly acclaimed picture book creators in the world. He is a three time winner of the prestigious Caldecott Medal and has also received two Caldecott Honors. His books will be used as a model for this engaging workshop which allows groups to write fantastical narrations to Wiesner's illustrated books

North Dining Area

8 to 18 yrs old

Carnations for Patients with a Twist

Stop by and create a flower. The flowers that we create will be used at the new “Henrietta Relay For Life” event, a fundraiser for the American Cancer Society. The tissue paper flowers will be a perfect, long-lasting token of appreciation for survivors to give to their caregivers, and a symbol of survivorship for cancer survivors Every year they attend the Relay For Life, they can add another tissue paper carnation to their “Survivorship” or “Caregiver” bouquet. They can celebrate another year of being a survivor! So this is a little different twist for the “Carnations for Patients” project, recognizing the cancer patients who are currently going through their struggle, recognizing those who have struggled and survived, and also showing the deep appreciation that all cancer survivors have for the people who helped them along the way—their caregivers.

Plants in Progress - 11 AM

9-167

Greenhouse tour of the Tropical House and Grow House. There are many interesting and rare plants to see such as Pineapple, Banana, Lemon, Venus Fly Trap, Scented Geranium, the Resurrection plant and more. There are Hydroponics, Aeroponics, and Aquaponics systems set up with mini-greens growing to observe; the Aquaponics system is activated by live fish. As we walk through the houses we will discuss various careers working with plants. Each child will receive a planting kit to take home and grow their own Sunflower and Pumpkin; kits include pot, soil, label, seeds, and directions. They can plant their seeds at home and transplant to a garden or container this summer.

What Does Your Guardian Do at MCC?

MCC is a great place to be an employee! Be an investigative reporter! Take some time during your day to talk with your guardian and tour their work place. Ask them about the things they do here at MCC during a normal work day. What's cool about their job? What's not so cool? Would you want to have a future career doing what they do? Why or why not?
