### **PROFILE STATEMENTS PROVIDED BY CANDIDATE**

Innovative and results oriented leader with over 14 years broad based experience in progressively responsible positions with proven achievements in all aspects of leading and managing workforce development programs and business development initiatives. Verbally articulate with strong writing, presentation and communication abilities. Strong technical acumen with general management qualifications in supervision, project management, budgeting, P & L management and financial reporting.

“While at Clark, I have consistently leveraged strong and healthy partnerships across campus with our faculty and academic deans in responding to our local workforce needs with innovative training and learning solutions. I have demonstrated creative leadership and diligence in the integration of technology and business best practices into the department’s workforce programming and administration.”
