

Instant Decision Days Offered In May

MCC Admissions Counselors will be on hand for 30-minute appointments this month, giving high school seniors an instant decision on acceptance for the fall semester. The earlier students are accepted, the sooner they can begin academic advising, placement testing if necessary, and get a seat in the classes they want.

Dates for Instant Decision days are May 4, 11, 18 and 25 from 1-4 p.m. Appointments will be offered at both Brighton and Damon City campuses. *If a desired appointment is already booked, alternate appointments are available.*

Each student must bring his or her high school transcript and a completed application for admission to their appointment. (Students can also apply online up to two days before.)

To schedule:

- For Brighton Campus appointments, call 585.292.2200. For Damon City Campus appointments, call 585.262.1740.

Summer Sessions Start May 31st and July 11th

A jumpstart on college credits. Courses completed in as few as five weeks.

Over 200 courses—taught on campus, online and at our extension site in Webster—offer high school students an opportunity to experience college-level coursework and still have plenty of time to enjoy summer. Better still, credits transfer to all SUNY schools and hundreds of colleges nationwide. MCC's 2011 summer course listing and registration instructions are available online at www.monroecc.edu/go/summer or by calling 585.292.2200.

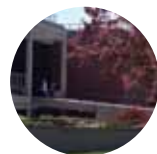

Will your office be closed or operating with reduced staff this summer?

State and local budget cuts are affecting us all. Please remind graduating seniors to request transcripts in June so that their college applications can be processed in time for fall.

August 29th is the final day to register for fall classes

A new registration deadline for full-time students will be in effect for the fall 2011 semester. To register, a student must have already applied, and been accepted, to MCC by the August 29th deadline.

"We want to give students every advantage to succeed academically," says MCC's Director of Admissions, Andy Freeman. "That includes having enough time to receive academic advising, to take any necessary placement testing, and to be notified of financial aid awards that help pay for their tuition and books."

A few dates to help students meet MCC's August registration deadline.

- **Apply for Financial Aid by May 20th**
Waiting to file for financial aid after May 20th will jeopardize whether a student receives notification of awards in time to help pay tuition, which is required for registration. Of course, the sooner students apply after March 31st, the better their chances of being considered for all available aid.
- **Apply for Admission by August 1st**
To ensure that all paperwork is received and processed in time to be accepted for the fall semester, students should send a completed application (via traditional mail or online) no later than this date.

Three MCC students distinguished by Phi Theta Kappa international honor society

Carolyn Spencer (Webster) has been selected as a member of the society's 2011 All-USA Community College Academic Team. Only 20 students from more than 1,600 nominations representing more than 800 community colleges were selected for this national honor. A \$2,500 scholarship and a medallion were presented to her at an awards ceremony in New Orleans, La., on Monday, April 11.

Carolyn Spencer

Lindsay Williams

MCC student, Lindsay Williams (Penfield), and MCC alumnus, Josiah Harris (Rochester), were also honored. Williams, a health information technology major, was selected (along with Spencer) as a 2011 Coca-Cola Gold Scholar. Harris, a Keuka College student, who earned an associate degree in criminal justice from MCC in December 2010, received a medallion.

Josiah Harris

Honorees were chosen based on academic achievement, leadership skills and community service involvement.

MCC Hosts Third Annual High-Tech Expo

More than 200 students and their families had a chance to see displays, talk with MCC faculty members, and meet representatives from 19 area high-tech companies—including Optimax Systems, Harris RF Communications, and Precise Tool and Manufacturing. Bob Lasch, Applied Tech Center Program Coordinator, says he hopes students walk away knowing about the endless possibilities in technology. "There are some really cool high-tech jobs in Rochester in manufacturing. Jobs they don't always hear about."

New Transfer Programs

Dual Admission with Houghton College

Academic programs included in this guaranteed transfer agreement include business administration, communications, adolescence education, inclusive childhood education, liberal arts, health/physical education and recreation, and fine arts.

New A.A. Degree

Liberal Arts and Sciences - Humanities

3 study tracks: literature, philosophy and popular culture

An Inside View of Gleason Hall of Science and Technology

President Anne Kress and faculty members join Radiologic Technology students to celebrate their 100% pass rate on state licensing exams. The group is gathered by the building's new plant wall and study area.

Glass walls in the new engineering design lab let in more natural light while letting passersby see students at work on entries for this year's SUNY Engineering Design Competition (TYESA).
