

Carol Dayes

I have been employed at Monroe Community College for several years. I have always been interested in being in a position to influence the outcomes of success for students since I was once a student here at Monroe Community College. I can attest to the professionalism of faculty, staff, and administrators who influenced me over the years to be the best that I can be. I would simply like to give back.

I have been a long-time advocate for education and the success of students' attending Monroe Community College. I hold a Bachelor's degree in "individualized Studies" from Charter Oak State College and a Master's of Science in Management from Roberts Wesleyan College. I have several years of experience dealing with students; administrators, and faculty here at MCC. Therefore, I am not unfamiliar with the exciting culture here at Monroe Community College. Although, I have not served on boards here at the college, I am excited about being able to become a member of the MCC Association Board of Directors so that I may have a voice in influencing positive change for the success of our students here.

I have several years of experience and volunteerism dealing with students here at the college; therefore, I am familiar with their needs firsthand. I have been employed in the Financial Aid Office for several years and hear students' concerns firsthand. I am confident that I have the skills to take control and share my positive ideas that will influence students to be successful. I am requesting that you consider me for the position of representative to the MCC Association Board of Directors.

Sincerely,

Carol Dayes

Financial Aid Representative
