

Palanivel Manoharan – Candidate for Dean of Health and STEM

Dr. Palanivel Manoharan graduated from The Ohio State University with both a PhD and M.S. in Mathematics. Dr. Manoharan has earned additional degrees in Mathematics including an M.Phil from Panjab University, India, and both an M.S. and B.S. from the University of Madras, India.

Dr. Manoharan is currently a member of the teaching faculty in the Mathematics Department at Indiana University. He has previously served in the position as Dean for the Division of Science and Mathematics at Lorain County Community College (LCCC), Elyria, OH. This previous role allowed him to oversee the STEM disciplines as well as coordinate enrollment and early-college partnerships between LCCC and local four-year universities. Prior to this position, Dr. Manoharan served as a mathematics professor/lecturer at multiple institutions in both the U.S. and India. Throughout each of his positions in both teaching and administration, Dr. Manoharan continued research in Mathematics as well as STEM Education including curriculum development to address diverse student populations in both the face-to-face and online setting.

Dr. Manoharan believes his over twenty years of teaching experience and twelve years of administrative experience will lead him to success as the Dean of STEM and HSPW.
