Academic Foundations

The goal of the Academic Foundations Division is to provide accessible and supported pathways to success for students. We believe that building positive relationships between faculty, staff, and students cultivates personal academic success. Our faculty and staff help MCC students meet their goals by providing them with access to numerous resources, individual academic advisement, college success classes and supports, and the Division's learning and writing centers. Our academic departments include ESOL & Transitional Studies and Academic Support Services. In addition, our School to College Alliances Office offers a Dual Enrollment program that provides high school students the opportunity to engage with college-level work while they are in high school, and an early start to their college academic journey. The Division continues to build partnerships and College Readiness Programs with surrounding schools, as well as leading MCC's Title III grant innovative initiatives, Building a Culture of Engagement and Success.

Academic Services, Damon City Campus

The Damon City Campus (DCC), located in the heart of Downtown Rochester, is a branch campus of MCC. Program offerings include Law and Criminal Justice, Education, and Human Services. In addition, students may select from an array of courses to complete degree requirements leading to many other majors at the College, including Liberal Arts. DCC is also home to grant-funded programs such as AmeriCorps, 292-BABY (formerly Rochester Parent Network), Transition and Postsecondary Programs for Students with Intellectual Disabilities (TPSID), and pre-collegiate programs including Upward Bound and Liberty Partnerships. The Center for Service-Learning, whose focus is to combine understanding of and participation in civic engagement combined with classroom instruction, is also located at DCC.

Curriculum & Program Development

The Office of Curriculum and Program Development assists faculty members in the development, revision, and assessment of the College's academic courses and programs. The office monitors trends and opportunities in curriculum and assessment within and beyond New York State and provides professional development programs and support to MCC faculty in relation to these areas.

Instructional Services

Instructional Services is a division of Academic Services that includes Instructional Technologies, Learning Resources, and Library Services. Instructional Technologies leads the MCC Virtual Campus and supports faculty and staff in the design, development, training, and support of instructional resources for classroom and administrative needs. Learning Resources is dedicated to assisting our students, faculty, and staff by providing access to current technology, course-related technology, classroom and technical training, and technical assistance. MCC Libraries' primary purpose is to support and advance the role our resources and services have in the teaching and learning programs of the College. The division provides services to students, faculty, and staff in support of the College's strategic commitment to "Learning First." Our highest priority is to promote student success.

Liberal Arts

The Liberal Arts Division is the largest academic division at Monroe Community College with over 140 full-time faculty and 14 academic degree programs. The Liberal Arts Division is home to the following academic departments: Anthropology/History/Political Science/Sociology (AHPS), English and Philosophy, Mathematics, Psychology, Visual and Performing Arts, and World Languages and Cultures. The Liberal Arts Division also sponsors the Mercer Gallery, Honors Institute, Holocaust Genocide Human Rights Project, Writing Across the Curriculum Program, Sixth Act Theatre Program, Creative Arts Project, The Democracy Commitment, Beyond the Formula Statistics Conference, Children's Book Fair, and the MCC Children's Literature Conference. In collaboration with the Division of Science, Health and Business, Liberal Arts also supports the Undergraduate Research, Scholarly Inquiry and Creative Activity Program (URSICA).

Science, Health and Business

The Division of Science, Health and Business comprises seven academic departments offering a wide range of Associate of Science, Associate of Applied Science, and Certificate programs as well as courses supporting the needs of liberal arts programs. The science departments include Biology, which includes the Biotechnology and Clinical Laboratory Technology programs, Chemistry and Geosciences, and Engineering Science and Physics. Nursing, which includes the Surgical Technology program; Health Professions, which includes Dental Assisting, Dental Hygiene, Health Information Technology, and Radiologic Technology; and the Health and Physical Education department, which includes the Physical Education, Sports Management, and Health Studies programs, make up the health area of the division. The Business Administration and Economics department, which includes Computer Information Systems, is also a part of the division. Also housed in the division, the collegiate support program, CSTEP, and the pre-collegiate support program, STEP, work with students interested in various science, technology, and applied health programs.

Career Technical Education

The Career Technical Education Division is responsible for academic programs specifically designed to lead to employment upon graduation from a certificate or degree program in high-demand occupations. The Career Technical Education Division includes the departments of Applied Technologies, Engineering Technologies, Hospitality, and Information and Computer Technologies. The division works closely with local business and industry to prepare a properly educated, technically skilled workforce for our community.

Public Safety Training Facility

The Public Safety Training Facility is operated by Monroe Community College under a partnership agreement between the City of Rochester and the County of Monroe. The PSTF is responsible for the pre-service and in-service advanced training for all first responders including police, fire and emergency medical service personnel throughout Monroe County. Additionally, the facility provides specialized training for corrections officers, private security, probation officers, private industry, and aircraft rescue firefighters. The PSTF is a \$26-million-dollar state-of-the-art facility situated on a seventeen-acre campus.
