Facts about Breast Cancer

- One in eight women or 12.6% of all women will get breast cancer in her lifetime.
- Breast cancer is the leading cause of cancer death in women between the **ages of 15 and 54**, and the second cause of cancer death in women 55 to 74.
- Over eighty percent of breast lumps are **not** cancerous, but benign such as fibrocystic breast disease.
- You are **never too young** to develop breast cancer! Breast Self-Exam should begin by the age of twenty.
- First sign of breast cancer usually shows up on a woman's mammogram before it can be felt or any other symptoms are present.
