

Teaching & Learning Conference

Sharing Our GIFTs

Brighton Campus—Monroe A/B

Friday June 12, 2015

8:45 am — 1 pm

For the past year, the Teaching & Creativity Center has asked the community to find ways to challenge ourselves, challenge our students. Now, it is time to share our innovations, our lessons, and our GIFTs. Great Ideas for Teaching (GIFTs) are those best practices and *aha!* moments of teaching—little nuggets of learning and pedagogy—that are just too good to keep to one's self.

During interactive sessions, you will learn about several GIFTs, consider ways to adopt these practices, and collaborate with colleagues. Join us for a celebration of a successful academic year and go home with new ideas to re-inspire and re-energize you for the future!

GIFT Sessions:

Making It Real

2 Tech or Not 2 Tech

Reaching Students

Presentation Potpourri

Tools for Metacognition

Write-To-Learn

Variations on the Flip

Community Connections

Staying Motivated

Strategies for Student Interaction
