"Rochester, NY...A Great Place for I.T."

Job Posting for the 2011 Explore Rochester IT Summer Internship:

(20) Paid Intern Positions Available
Information Technologies Intern – Rochester, NY

The Explore Rochester IT summer internship program is looking for (20) Information Technology Interns in the Rochester, NY area.

Description:
This paid internship begins June 6, 2011 and ends August 12, 2011.

Students accepted into the internship will spend three weeks at three different employers in the Rochester area (nine weeks in total). Their experiences include general exposure to all facets of an IT Organization AND hands-on project work. This program helps the students gain an understanding of what it is like to work in a professional business environment and the associated communications skills required.

The internship is designed to provide exposure and development in the areas such as Server Support, Network Support, Desktop Management, Systems Analysis, Security, Database Administration and Programming. Interns will be exposed to most levels of these areas resulting in general training, increased understanding of the various fields and opportunities within IT. Small projects will be defined based on the specific skills and abilities of selected intern's expertise and current IT priorities. IT priorities frequently change, intern is expected to be flexible regarding specific duties and projects.

Skills/Abilities:

· Must have excellent written and oral communication skills
· Must be self-starting and able to work independently
· Must have good organizational skills
· Must be able to work effectively with various groups and constituencies

Required Education:

· Must be an undergraduate student with a cumulative GPA of 3.0 or above.
· Must have completed at least 3 semesters of college education at an accredited college or university and be enrolled for full-time continued education in the fall in a Computer Science/IT curriculum.

To Apply:

Candidates with a vested interest in long-term careers in the Rochester Area, please visit www.ExploreRochesterIT.com. Applications will be accepted from February 1st – March 31st, 2011.

The Company obtains a background check and requires drug testing for all applicants who are offered employment in this position.
