## Fall 2013 Technology Days

---

The training team has reserved Tuesdays and Wednesdays throughout the Fall 2013 semester just for you! Between September 24, 2013 and December 18, 2013 the training team has selected a variety of informational and skill building sessions to present to you. We will be offering multiple sessions each day with a variety of topics to choose from during each session. The session descriptions and dates and times of each session are noted below. REGISTRATION IS REQUIRED for these sessions.

Register for ETS Technology Days sessions by logging into myMCC > Tech Tab > Technology Training Channel > "Register for a Session" Link. In the Description Box be sure to note the session(s) you are interested in and the date you wish to attend.

Contact Marie Gibson, ETS Instructional Technologies with any questions you may have regarding ETS Technology Days.

### **A1: New Employee Overview of Educational Technology Resource**

## D1: File Management Essentials and M: Drive Review

Of course I saved it.. You mean I have to know where?! Use Microsoft Windows and take control of your work. Save it where you want it. Share it if you like! Use the M drive to save your work. Save yourself, time, energy, frustration and computer space. Even better share information with your students. Stop printing and carrying all those handouts. Share them with students. Let them print them and lug them around campus. The session will cover the following topics using Windows Explorer and Windows Computer:

- ~ Create folders for easy organization
- ~ Work with portable media
- ~ Effectively navigate computer drives and folders
- ~ Move, copy, delete and rename files and folders
- ~ Create shortcuts for easy access to files, folders and software
- ~ Set up software options for easy access to files, folders and software
- ~ Work with the Recycle Bin

### **P104: Open Educational Resources (OER)**

Open Education Resources (OER) are teaching and learning materials (e.g. lesson plans, online tutorials, quizzes, videos, etc.) that are freely available for everyone to use, reuse, adapt, and share. As proponents of the Open Education movement, their creators have chosen to retain few, if any, ownership rights in an effort for others to benefit from shared teacher expertise. Come to this session to learn more about how you can incorporate OER into your teaching practice.

Visit OER Commons to learn more about OER: <http://www.oercommons.org/>

	<b>Tuesday</b>	<b>November 05, 2013</b>	<b>3:00 PM</b>	<b>4:30 PM</b>	<b>2-315</b>

---

### **P105: Internet of Things**

Many of the items we own such as dishwashers, refrigerators, automobiles and even newly built houses, are equipped with sensors that are gaining the ability to communicate with us and our devices. These advances in technology allow for data to be transferred over networks and do not require human computer interaction. There are chips being developed to monitor human heart activity or monitor blood sugar levels in diabetics. We will show examples of the Internet of Things and open the floor up for conversation so we can discuss how this will be affecting society moving forward.

## P106: Google Drive

What is GoogleDrive? Come learn about what it is, and why migrating to the cloud will make your life easier:

- GoogleDrive will allow you to create word processing, spreadsheet, presentations and fillable forms right online
- GoogleDrive will help you keep all your documents (work, personal, other) all in one place, accessible from anywhere)
- GoogleDrive also can be accessed directly from your computer, not through a web browser
- GoogleDrive can be used by almost every mobile device
- GoogleDrive can also make adding content to ANGEL (or Blackboard) much easier.

Bring a laptop if you want; we can add the Google Drive desktop application during this workshop.
