<b>9:00 AM to 3:00 PM</b>  <b>Atrium</b>	<b>Carnations for Patients with a Twist</b>  Stop by and create a flower. The flowers that we create from this event will be used at the new “Henrietta Relay For Life” event, a fundraiser for the American Cancer Society. The tissue paper flowers will be a perfect, long-lasting token of appreciation for survivors to give to their caregivers, and a symbol of survivorship for the cancer survivors . . . Every year they attend the Relay For Life, they can add another tissue paper carnation to their “Survivorship” or “Caregiver” bouquet. They can celebrate another year of being a survivor! So this is a little different twist for the “Carnations for Patients” project, with recognizing the cancer patients who are currently going through their struggle, recognizing those who have struggled and survived, and also showing the deep appreciation that all cancer survivors have for the people who helped them along the way—their caregivers.  <b>Ages 8 to 18</b>

Two young men are followed during their entire high-school career, beginning with their participation in playground games and ending with their being recruited by colleges. The obstacles these young men face include parental drug addiction, family poverty, and inner-city violence, as well as the usual obstacles that arise in competition, including physical injuries. While each aspires to leave the ghetto, there are many reasons to suppose they may not be able to, despite each beating the odds against them by winning college scholarships.
