

Candidate Statement for Faculty Senate Secretary

Teresa Schichler, Systems & Technologies Manager, Economic Development and Innovative Workforce Services

It would be an honor to continue serving as Secretary for the Faculty Senate (FS). I joined the Senate in the Fall of 2007 serving six consecutive years as a Senator.

During my first term I was a member of the Professional Development committee where I assisted in reviewing employee awards and leaves. I joined SCAA (Special Committee on Administrative Affairs) for my second term and served on many search committees as well as assisting with Chair elections. Both of these committee assignments allowed me the opportunity to work with several different areas of the college and learn a great deal more about the various processes and procedures here at the institution.

I then won the election for an Officer position of Secretary and have spent the last two years in this role.

I've thoroughly enjoyed my years on the Faculty Senate. As my current term comes to an end, I look forward to continuing my service – as Secretary to the Faculty Senate for the 2015/2016 and 2016/2017 academic years.

Thank you for your consideration.
