Lisa Truman

Resolution to support the MCC Association raise to student life fees

Whereas student government has provided to the student body with a survey about a potential raise in student life fees and

Whereas the survey addressed the reasoning behind the increase that include an expected drop in enrollment and that student life fees provide students with the current and possible future trips and clubs/organizations that are offered that would be greatly helped by raising the student life fees and

Whereas the survey also included the total of a \$10 increase per student for the year.

Be it resolved that with a majority vote of the MCC Student Government Senate the senate will support the increase to the student life fees.
