

**Office of Student Life  
& Leadership Development**  
We'll help you shine!

**MCC LEAD Program**

**Mission Statement**

---

The primary purpose of the MCC LEAD Program is to foster student learning and personal development. With the creation of powerful learning environments, students are offered experiential learning opportunities that will allow them to apply knowledge obtained in the classroom, develop leadership skills and reflect on their learning experiences and desired outcomes. Through collaborative learning that is fused with activities, students are able to continuously improve themselves in response to evaluation and feedback. The LEAD Program provides the curriculum for learning, and co-curricular programs provide the venue for educationally purposeful experiences.
