Computers and electronics may contain hazardous waste elements such as lead solder, mercury, cadmium and beryllium. Monitors, CRT's and Televisions may have anywhere from 4 to 8 lbs. of lead.

All electronics must be recycled in an environmentally sound manner.

The New York State Electronic Equipment Recycling & Reuse Act went into effect April 1, 2011. This law mandates recycling of the following covered electronic equipment (CEE) at no charge to the consumer.

All hard drives are either sanitized or destroyed
