4:00 - 7:00

Warshof Conference Center, R. Thomas Flynn Campus Center - Monroe B

Come and meet cultural Ambassadors from Latin American countries and view three short films as well.

Zombi is about a Spanish family that has an aging parent, the wife's father, who's suffering from dementia, living with them. His memory loss and the need for constant care put pressure on all the members of the family. It's a thought-provoking film that, in only 15 minutes, tackles important topics such as family ties, aging and dying.

In *Historias* legend becomes reality in this story about a teenager who tries to reject his identity. Manuel is tired of his grandmother's fanciful stories from the old country and of being the only poor kid at an upper-class school. He wishes he was more like all of his classmates until the night he hears the cry of The Weeping Woman.

Free-Kick - Having turned 60, Adela is living a life she never wanted. She has no children, a husband who walks all over her and, worst of all, nothing to look forward to. Then one day she has the chance to win 300,000 Euros and leave her old life behind.
