# Welcome to MCC!

We offer an impressive 100 associate degree and certificate programs that are housed within our six themed schools. These schools help students achieve their goals through relevant academic experiences and personalized support. Students are enrolled according to their academic interests and are guided through goal setting, career and academic planning, and growth and leadership opportunities. Students who are unsure of their interests spend the first semester working with advisors who assist them in choosing an educational direction. Faculty and Student Services professionals work collaboratively throughout the duration of the students' time at MCC to support academic achievement, celebrate milestones, and guide students toward success.
