

Understanding the Class Schedule

Here is your key to understanding the pieces of the class schedule for registration

CRN	Course Registration Number	This is a five-digit number used to identify a specific section of a course when registering. EX: ENG101-016 CRN 23743.
Title		Expand this column to find the full section title which may include special registration alerts for that section. Click on the title to find additional section information such as the course description, required prerequisites, textbook list, corequisite and other important section information.
Credit hours		Hours awarded for successful completion of the course.
Campus		Indicates where the section will be taught. Online/Virtual and Remote does not have a physical location.
Instructional Method		Indicates how the section will be taught – physically on campus, remotely on specific days and times, or asynchronously with no scheduled class meetings.
Instructor		The instructor assigned to teach the course. Click on the name to email the instructor any questions or if the section requires permission from them to register.
Available Seats		Displays the number of seats remaining before being considered closed. Will show full if closed which means you can waitlist for the course. Waitlisting does not guarantee a seat in the course.
Meeting Info		Days and times the course will meet. No days or times will be shown for asynchronous sections. Some sections may have different meeting days and times if taught with a lecture and lab. You can hover over this area to show the building and room information and the start and end dates of the section

		as some courses run for shorter lengths than the entire semester. (S) Sunday, (M) Monday, (T) Tuesday, (W) Wednesday, (R) Thursday, (F) Friday, (S) Saturday
Attribute		Will display any associated attribute(s) for the section. Please see your Success Coach for more specific information.
Linked sections		Click on magnifying glass to display the other sections required for registration. For example, when registering for a lecture, you may be required to register for one lab of your choosing from the list that best fits into your schedule.
