COVID-19 Pooled Testing
For MCC Students, Faculty and Staff

Steps to Follow Prior to Testing

At Least 2 Days Before Your Appointment

- **Pre-register for your test:** Create a COVID-19 account via the SUNY Upstate Medical University website ([https://www.suny-covid-test.com/](https://www.suny-covid-test.com/)) and complete your profile.
  - When asked for your “Student ID” or an institutional ID; please input your M number (example: M00001234). If you do not possess an M number you can use your State DMV number (driver’s license number) in lieu of an M number.
  - If you do not have health insurance, enter “Campus Pays” in the first insurance field and “N/A” in the other insurance fields.
  - Do not respond to the question, “Before proceeding, do you have a test kit?” You will complete this part of the registration process when you receive your test kit at your MCC Pooled Testing Center appointment.
- If you do not have a smart phone or mobile device, staff will assist you at the pooled testing center.

3 Hours Before Your Appointment

- Do not brush your teeth or use mouthwash.

30 Minutes Before Check-in at the Test Center

- Do not eat or drink anything, including chewing gum, mints or lozenges.
- Do not smoke, vape, or use smokeless tobacco products.

Before You Go to the Test Center

Warshof Conference Center, R. Thomas Flynn Campus Center, Monroe A&B, Brighton Campus

- Complete your daily [COVID-19 Self-Assessment](#).
- Bring your MCC ID.
- Bring your smart phone or mobile device so you can login to the SUNY Upstate website. If you do not have one, staff will assist you at the pooled testing center.

*To prevent the risk of virus transmission through contact, do not lend your electronic devices to other individuals at the test center.*
