Nature of the Work

The principle function of a sprinkler fitter is the installation of fire protection systems. This includes underground supply piping, which is connected to integrated overhead piping system for suppression of fire.

The Apprenticeship Program is a five-year program with on the job training and a 19 Course correspondence through a nationally recognized university. Once you have entered the Apprenticeship Program and have completed your six-month probationary period you will become a member of Local 669.

Current Situation

Local 669 Performs Essential Work. As of this writing, we believe we will be over 90% employment in NY State within the next 10 Days. We currently do not have interviews scheduled due to our primary focus of taking care of our customers, members, and retirees.

However, we anticipate a boomerang and will be looking for top quality women and men to join our team. Please contact me directly!

Qualifications

- Must be at least 18 years of age
- Must have a high school diploma or GED
- Must be physically fit to perform the work of the trade
- Must have other than dishonorable discharge from military (if applicable)
- Must pass appropriate drug test

For anyone interested in interviewing, they just have to email me at ny669jatcrecruiting@gmail.com. Introduce yourself; send a resume and also a background on work experience, training and education.
