Optimax Systems is hiring a full-time, QA Measurement Technician

About
Optimax Systems, in Ontario, NY, is a world leader in manufacturing small volume, high quality optical components. We build the optics behind the latest breakthrough technologies in aerospace, defense, and consumer electronics. Our unique, fun corporate culture of teamwork, innovation and agility provides a dynamic work environment.

Position
The Measurement Technician position provides on the job training with potential for advancement. Individuals will inspect precision optical lenses and record measured values. They will work to industry standards inside a clean environment with apparel provided. Use various interferometric testing equipment accompanied by mechanical instruments to record and manage test data.

Duties and Responsibilities
• Read and interpret blueprints, specification sheets, standards and customer data.
• Inspect optical parts for surface defects such as pits, scratches, unpolished areas, bubbles, and chips, in accordance to industry requirements.
• Measure and record lens dimensions, such as thickness, radius of curvature and surface figure/roughness on in-process inspection data sheets.
• Verify all data is present and correct on in-process inspection data sheets according to customer requirements.
• Contact team members and team leaders when discrepant material is identified.
• Provide quality audits to verify inspection processes are being carried out & work with opticians on a continuous basis.

Education/Experience/Attributes
• Associates degree or vocational training in optics, manufacturing, materials science or machining preferred.
• Availability on off-shifts and occasional Saturday/Sunday work hours.
• Ability to learn operation and maintenance of Interferometers, Surface Profilometer.
• Willingness to train other staff on the use of measurement equipment.
• Prioritize workload according to the department’s tight schedule.
• Competent with Microsoft applications to document, interpret and record results.
• Able to trouble shoot and coordinate with coworkers to apply appropriate solutions.

Full-time Benefit Summary
Profit Sharing Plan - 25% of company’s pre-tax profits, 80 hours of paid time off in your first year and 100% tuition assistance toward pre-approved educational expenses. Our off-shift employees receive a differential wage of a 10% increase from the A-Shift rate for B-Shift (3 pm to 11:30 pm) and 15% increase for C-Shift (11 pm to 7:30 am) and these employees accrue their paid time off at a higher rate; 120 hours per year compared to 80 hours for A-Shift employees.
