ATTENTION

Precision Machining & Tooling Majors!

Qualitrol is hiring full-time CNC Machinists

About
Qualitrol provides condition based monitoring across the globe for utility assets. We are the largest and most trusted global leader for partial discharge monitoring, asset protection equipment and information products across generation, transmission and distribution.

Position(s)
Seeking full-time CNC Machinists. Up to 4 positions immediately available supporting our internal fabrication department. Looking for CNC Operators and CNC Programmers/Set up Machinist for 2nd and 3rd shift opportunities.

Duties & Responsibilities
• Sets up machine and observes machine operation to verify accuracy of machine settings and to detect malfunctions or out-of-tolerance machining, using precision measuring instruments such as micrometer and caliper.
• Sets up and controls operation of computerized deburring and tooling machine to perform series of machining operations, such as drilling, chamfering, and deburring.
• Inspects "first part", and inspects work pieces throughout the production run for out-of-tolerance machining.
• Clean machine and work area.

Education/Experience
• High School Diploma or GED required, Two year degree or Certificate in Precision Tooling & Machining preferred.
• Thorough operational knowledge and skills of specific CNC mills and lathes to be operated with the ability to calculate and set machine controls either manually or by entering commands.
• Ability to operate assigned equipment safely and efficiently.
• Ability to keep record of parts made.
• Ability to use precision measuring tools and equipment, read drawings and blueprints, and be familiar with common machine and measuring tools.

Employees at Qualitrol must be at least 18 years of age, hold a High School Diploma (HSD), General Equivalency Degree (GED) or higher, successfully pass a 7 year criminal background check, and a drug test. Steel toed safety shoes, long pants, and safety glasses are required in our factory.
