

GEO 295- FIELD STUDIES IN THE GEOSCIENCES--Geology of New York State

Schedule

Thursdays from 1:00-4:50 starting in March 2020

Lectures at 1:00 to 4:50pm starting on 3/5 to 5/21/20

Field Excursion 1: May 9th & 10th

Field Excursion 2: May 23rd to May 28th

Description

Come discover New York's magnificent scenic features as you learn the geologic events that shaped them. Visit caves, waterfalls, extinct volcanoes, and deep gorges. Discover fossils, puzzling landscapes, and other hidden gems! This class begins March 5th 2020 and ends with two, off-campus field excursions in May. GEO-295 provides 4-credit-hours SUNY General Education in the Natural Sciences. Permission by the Instructor is required.

Destinations: Adirondacks, Capital District, Catskills, Finger Lakes, Hudson Valley, Mohawk Valley, Niagara Frontier, Southern Tier, Western NY

Next Informational Session: FRIDAY, NOV. 8th at noon in 11-309
