

Earn: Artificial Intelligence (AI) User Badge

Description: This badge will show that students know how to ethically use generative artificial intelligence (AI) for honing study skills, developing text prompts, image creation, fact checking, as well as video creation.

Criteria: Completion of five of the six AI assignments in the course, Physical Geography I lecture (GEG 101).

AI Assignments:

- 1) Determine ways to improve your study skills
- 2) Find ways a topic in this class relates to the real world
- 3) Practice writing clear, effective AI prompts for a geography topic, and revise as needed
- 4) Create images tied to one of the United Nations Sustainability Development Goals
- 5) Use generative AI to fact check
- 6) Create a short video summarizing how you effectively used AI

How is the badge valuable?

As technology is changing AI is becoming increasingly relevant. Knowing how to use it AI effectively can enhance your workforce skills. Make sure to add your badge to your resume.
