

Physical Geology (GEO 101)

Do you need a 4-credit lab course and want to return to learning on-campus?

GEO 101:

- Fills both a SUNY Gen-Ed Natural Science requirement and MCC Gen-Ed Scientific Reasoning and Critical Thinking Learning Outcomes!
- Teaches you about hazards including volcanic eruptions, earthquakes, floods, landslides, and how they impact society!
- Teaches you about resources we need for technology, clean drinking water, energy development, as well as safe planning and construction of communities, & more!
- Prepares you for Historical Geology and other advanced Geology courses in the A.S. in Geology!
- See our full [Geology course descriptions](#).

Fall 2021 On-Campus Sections:

- Lecture meets Tuesday/Thursday 12:30-1:45PM (CRN 12435)
- Lab options are Weds 1-3:50PM (CRN 13291) or Thurs 9:30am-12:20pm (CRN 12436)
