

# Fall 2022 Admission Information Clinical Laboratory Technician A.A.S For High School Applicants (CL01)

The MCC Clinical Laboratory Technician A.A.S. for incoming high school seniors (CL01) is offered every fall semester. Approximately two high school students are admitted to CL01. All applicants meeting the admission requirements by the application deadline will be considered. MCC maintains a selective and competitive admissions process for this program; see the selection criteria below.

Applicants who are not selected for CL01, do not meet the admission requirements, or who apply after the deadline date will be admitted into another program at MCC (Health Studies-Clinical Track or Liberal Arts) and will have the opportunity to work with an academic advisor to select appropriate courses for possible admission into the program for a future semester. Please refer to the [Clinical Laboratory Technician admission information](#) for “Current Students.”

## Application Deadline and Notification

- The application deadline is January 31, 2022 for Fall of 2022.
- Admission notifications will be mailed by March 15, 2022.

## How to Apply

- Complete the [MCC application](#) by January 31, 2022
- All official transcripts must be submitted by the January 31<sup>st</sup> date to be considered. This includes high school transcripts, AP or IB score reports (if applicable), and college transcripts (if applicable; i.e. dual credit coursework taken at other institutions).

## Admission Requirements

Prerequisite courses must be completed prior to the application deadline with a “C” or better. Science courses must include a lab. All high school classes must be at least a one credit course; half credit courses do not meet the required prerequisite. Meeting minimum requirements does not guarantee admission.

*Please note: Selection will be based upon the grades received on the Regents exam and final course grades for the courses listed below. Regents exams are weighted heavier than local exams, but local level exams will be accepted. Students who were enrolled in one of the prerequisite courses during the 2020/2021 school years (due to COVID) and were exempt from the Regents exam will have their final course grade used in the selection process. Interpretation of the high school prerequisite may also vary based on the school district’s grading policy if a numeric grade is not posted on the high school transcript. For example, in the event that the school district posted “Pass with Distinction/Pass/Fail” grades, only “Pass with Distinction” will be acceptable unless additional documentation from the school district is provided. Please speak to a staff member in Admissions or Advisement to determine prerequisite eligibility.*

### **Students will be ranked according to the combined average of math and biology grades.**

- High School Algebra II Regents exam of 83 or higher, or a final Algebra II course grade of 93 or higher and a 3.5 GPA, or a Pre-Calculus course grade of 75 or higher and a 3.5 GPA, or a Pre-Calculus course grade of 83 or higher, or a SAT math score of 620 or higher, or an AP Calculus score of 3 or higher.
- High School Living Environment/ Biology with a “C” or better
- High School Chemistry recommended
  - Note: Chemistry required if student chooses BIO 144 & 145 sequence
- US citizen or have Permanent Resident Status by the application deadline

## Additional Notes Regarding Admission

- If admitted to the program, the student will meet with CLT program faculty for course advisement and registration. Part time study is available, but must be coordinated with the CLT Program Director. Students must be available to take classes during the day and have reliable transportation to clinical sites.
- Admission is conditional upon completion of medical requirements, clearance of existing health problem(s), and ability to meet essential functions (physical and mental demands) of the program. See requirements at: [Health Services](#).
- COVID-19 Vaccination will be required of all students entering Clinical Lab Technician per the NYS COVID Vaccine Mandate for any student who participates in a clinical rotation (effective 8/27/21). Very limited Medical exemptions will be allowed. No religious exemptions will be allowed.
- Readmission, if approved, is always on a space available basis and is only allowed once.
