Fall 2021 Admission Information
Radiologic Technology A.A.S. (RA01)

The MCC Radiologic Technology A.A.S. program (RA01) is offered every fall semester. All applicants meeting the admission requirements by the application deadline will be considered. MCC maintains a selective and competitive admissions process for this program. Therefore, if there are more applicants than seats available, a competitive admission process will be used to distribute seats (see “Selection Criteria” below). Applicants who do not meet the admission requirements or who are not selected for the upcoming semester will be admitted into another program at MCC (i.e. Health Studies – Clinical Track or Liberal Arts) and can work with an academic advisor toward their goal.

Application Deadline and Notification

Application is available mid-September. The deadline for Fall 2021 is January 31, 2021. Admission notifications will be sent by March 15, 2021.

How to Apply

- Currently enrolled, matriculated students are required to apply online (myMCC, Students tab, My Account tab, Academic Advising, request a change of major).
- New, transfer, returning, and non-matriculated students are required to apply through the Admissions Office by completing an Admissions Application.
- Students must reapply each semester if not selected for upcoming semester or if declining/deferring admission.

Admission Requirements

All prerequisite courses or equivalent transfer credit must have a minimum grade of “C” for eligibility for admission and must be completed prior to the application deadline.

- Math: Level 8 Math placement or MTH 104, MTH 165, MTH 175, or MTH 210. (Math placement via high school or ACCUPLACER is valid for three years.)
- Biology: High school biology/living environment or BIO 120, BIO 132 and 133, BIO 142, BIO 144, or BIO 155
- Chemistry: High school chemistry or CHE 100, CHE 124, CHE 145 or CHE 151
- 2.75 cumulative GPA required, including coursework at previous institutions
- US citizen or have Permanent Resident Status by the application deadline
- New York State resident
- Official transcripts, including high school, AP, IB, dual credit, or other institutions, must be on file with the Admissions Office by the application deadline for transfer credit evaluation.
- Admission is conditional upon completion of medical requirements, clearance of existing health problem(s), and ability to meet essential functions (physical and mental demands) of the program. See requirements at: Health Services.

Selection Criteria

When the number of applicants exceeds the available number of seats in the Radiologic Technology program, selection is based on the calculation of quality points earned in the following courses at MCC or equivalent transfer credit. Students are then ranked from highest to lowest number of quality points...
and admission is granted to the students with the most points. See the quality point chart at the end of this document.

Quality Point Classes

- BIO 144 – Human Anatomy and Physiology I* (4 credits)
- ENG 101 – College Composition (3 credits) or ENG 200 – Advanced Composition (3 credits)
- MTH 165 – College Algebra (3 credits) or higher (4 credit courses, such as MTH 175 or 210)
  
  Note: If multiple math courses have been taken, the single course with the highest point value will be counted.

*Please note: Both BIO 144 and 145 (Human Anatomy & Physiology I & II) will be required for the program, but only BIO 144 will be used for points. If both BIO 142 (Human Anatomy, 4 credits) and BIO 143 (Human Physiology, 4 credits) were previously taken and completed with grades of “C” or better, they can be substituted for BIO 144 and 145, but only points for BIO 142 will be awarded. See repeat policy and time limit information on page 3. Quality points for BIO 144 (or the former BIO 142) will be multiplied by 1.25.

Additional points will be awarded for the following criteria

- Honorably Discharged Military Veterans or Current Service Members will be awarded one (1) additional quality point
- Applicants with a Bachelor’s degree by the application deadline will be awarded four (4) additional points

Admission Profile (Fall 2020 admitted class)

- 28 students admitted; approximately 75 qualified applicants
- The initial quality point cut off was 39. The maximum number of possible points is 53.
- 100% of the students admitted had completed all four quality point courses by the application deadline.
- Approximately 35% of the students admitted had taken a four-credit math course.
- Approximately 35% of the students admitted had earned an “A” in BIO 144 (or the former BIO 142).

Additional Notes Regarding Admission

- BIO 142 or 144 must be no more than seven (7) years old for the grade to be considered when the applicant is accepted for admission.
- Students who have previously been matriculated in the Radiologic Technology program at MCC or another institution should refer to the re-admission policy as described in the Radiologic Technology program description.
- Grading system notes
  - MCC grades of Satisfactory (S) equate to a “C”; Pass (P) equates to a “D-“; and Unsatisfactory (U) equates to a “F.”
  - Transfer credits earned at institutions who use a S/U or P/F grading system where a S or P equates to a “C” or higher will receive quality points equivalent to a “C.”
  - AP scores of 3, 4, or 5 equate to “C”, “B”, or “A” respectively.
- If admitted to the program, the student will be required to shadow a minimum of three (3) hours in a Radiologic Technology Department in a hospital prior to beginning the program. This will be set up through the Radiologic Technology Program Director.
• If admitted to the program, the student’s class schedule will be assigned by the Radiologic Technology Program Director. Students must be available to take classes during the day and have reliable transportation to clinical sites.

Anatomy & Physiology Repeat Course Policy

• Students with two (2) unsuccessful attempts in the first half of Anatomy & Physiology coursework (BIO 142 or 144) within the past seven (7) years are ineligible to apply.
• Unsuccessful attempts are defined as withdrawals (W), grades of “C-“ or below, or Unsatisfactory (U).
• Unsuccessful attempts at previous institutions are included in this policy.
• Due to COVID-19, unsuccessful attempts in BIO 144 and 145 at MCC or another institution during Spring, Summer, and Fall 2020 will NOT be counted as an unsuccessful attempt under the repeat policy.
