Eng 101 Ready

Grade of A

Grade of C - Grade of C or higher

Grade of B - or higher

Grade of B - or higher

 Grade of B - or higher

Unless otherwise specified, a grade of C or higher is required to progress to the next math course.

*1 Student may take any course at placement level or lower level.

*2 Flexible Pace options available.

*3 Imputed Credit Course. Does not count towards a college degree.

*4 Available as an accelerated option; refer to the Accelerated Options Table.

*5 MTH 096 is intended only for students whose terminal math requirement is Statistics.
Mathematics Accelerated Options

The options outlined here allow a student to complete more than one course in a semester. These are good choices for motivated students with strong study skills.

To register for the learning communities, students sign up for both courses, with the same section number. For example: TRS-080-BL1 and MTH-150-BL1 or MTH-165-BL5 and MTH-175-BL5.

### FLEXIBLE PACE

**Accelerating with Flexible Pace**

TRS 092, TRS 094, MTH 096, MTH 098, MTH 099, & MTH 104 are offered in the Flex format. In a Flex class, a student who completes the class early can start the next flex course. (It is possible to complete two courses in one semester.) If the student does not complete a flex course, the partial course can carry over to the next semester so they do not have to start over from the beginning. A late start MTH 160 or MTH 165 may be available for a student finishing the prerequisite flex course early in the semester.

For example, a student might finish MTH 098 early in the semester and do most of MTH 104 in that same semester. In the second semester, the student could finish MTH 104 in time to take a late start MTH 165 course.

Another example is that MTH 096 and MTH 098 share 4 modules of content. A student who has taken MTH 096 can take MTH 098 and the test grades for the 4 common modules are imported into MTH 096 (or vice versa).

To register for a face to face flex pace MTH 098 and MTH 104, students must sign up for both a three-hour lecture section (indicated by an F in the section number) and a one-hour conference section (indicated by an M). For example, a student could sign up for MTH 098 F03 along with MTH 098 M11; or MTH 098 CF3 along with MTH 098 CM8. (MTH 096 does not require a conference section.) MTH 098 and 096 can also be taken concurrently.
